

*VLI Provides Analytical,
Bioanalytical, Microbiology,
Consulting and Regulatory, and
Validation Services*

Highlight of Services

1. Analytical Method Development and Validation Services
2. Product Testing, Chemical Analysis, Material Testing, Reverse Engineering
3. Microbiology: Bacterial Identification, Mold Testing, Air Sampling, Water Analysis
4. Bioanalytical Method Development and Validation Services
5. Regulatory Submission Services
6. Quality Assurance and Audit Services
7. Instrument Qualification and Validation and Qualification and
8. Instrument Preventative Maintenance and on-site Repairs.
9. Software Validation Services
10. Facility Design and Validation

CALL (866) 539-1536

Validation Laboratories Inc

1560 Unit F, Commerce St, Corona Ca,
92880

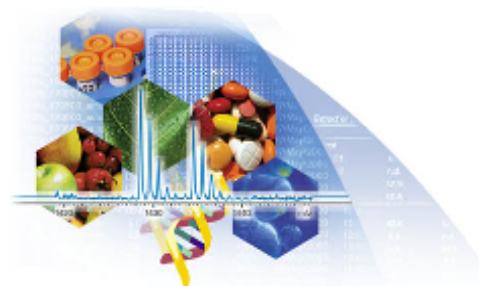

Tel: 866-539-1536

Fax: 717-427-1727

Shipping Address: 8018 E Santa Ana
Canyon Rd, #100-150, Anaheim Hills,
CA 92808

Validation Laboratories Inc.

*Development &
Validation Services*

VLI Provides: Microbiology Services,
Analytical & Bioanalytical Development,
Drug development, Product Development,
Software Development, Software Validation,
Equipment and Instrument Validation, Facility
Design and Validation, Quality Control Audit,
Regulatory Consulting Regulatory and
Submission Services, and Validation Services

Chemical Analysis Services

- Finished pharmaceutical products:
 - Method development activities to support de-formulation studies and determination of active/excipient ratios
 - Method Validation Phase I, II, III
 - Release Testing
- Raw material and Excipients testing:
 - Proof of structure
 - Identification and quantitation
 - Establishment of purity as well as release
 - Specification development for excipient-masking transformations
Packaging components Physico-chemical testing Moisture permeability Container-closure integrity evaluations
 - Extractable /leachable determinations

HPLC, IC, LC/MS, GC, GC/MS

- Chromatographic Purity And Stability Indicating Assays
- Solid Oral - Assay, Impurities, Content Uniformity
- Liquid Oral - Assay, Impurities, Dose Uniformity
- Cleaning Verification Methods.
- Impurity Identification
- High Resolution Mass Spectrometry
Liquid and Gas Chromatography
- HPLC , GC , Chiral HPLC And Chiral GC, and Capillary Electrophoresis
- Ion Chromatography

Microbiology Services

- Microbiology Testing for: Pharmaceuticals, Cosmetics, and Food Industries
- Microbial Identification, Microbial Limits
- Water Testing, Air Sampling
- Bioburden Analysis
- Kinetic LAL
- Bacterial Endotoxin Test
- Minimum Lethal Concentration
- USP and ASTM Testing
- Aerobic and Anaerobic Plate Count
- Fungal Plate Count
- Mold Testing
- Contamination Determination

Bioanalytical Development

- Bioanalytical Method Development and Validation
- Quantitation Of Metabolites and Drugs In Biological Matrices
- LC/MS And LC/MS/MS
- GC/MS And GC/MS/MS
- Liquid Chromatography
- Automated Solid Phase And Liquid-Liquid Extraction
- ELISA, Electrophoresis, Bioassays
- Affinity Chromatography
- Protein Assays
- Peptide Sequencing

Regulatory & Audit Services

- Preparation of IND, NDA, ANAD and CMC , Setting Strategies With FDA for Successful Submissions
- Interacting Directly With FDA
- Consulting for Regulatory Submission
- System Audit (QA), Review, & Training
- GMP/GLP Site Audit, Audit Reports

Computer Validation Services

- Project Planning
- Risk Assessment and Analysis
- Developing User Requirement Specification (URS) and Functional Requirement Specification (FRS)
- Validation Protocols
- Validation Reports
- Traceability Matrix, & Sop Development

Instrument Qualification & Repair

- HPLC Installation, Operational And Performance Qualifications (IQ/OQ/PQ)
- HPLC Preventative Maintenance And Repair Services

Facility Design and Validation

- Facility Validation and Desing:
 - HVAC System Validation
 - Water System Validation
 - Security System Validation
